Applicant Signature: _____ Date: _____

Approved by: _____ Date: _____

(Inspector)

Building Code Sec 15-1-9 "REGULATION AND PERMIT FOR RAZING BUILDINGS"

- (a) "No building within the Village of Cashton shall be razed without a permit from the Building Inspector. A snow fence or other approved barricade shall be provided as soon as any portion of the building is removed and shall remain during razing operations. After all razing operations have been completed, the foundation shall be filled at least one (1) foot above the adjacent grade, the property raked clean, and all debris hauled away. Razing permits shall lapse and be void unless the work authorized thereby is commenced within six (6) months from the date thereof or completed within thirty (30) days from the date of commencement of said work. Any unfinished portion of work remaining beyond the required thirty (30) days must have special approval from the Building Inspector. "
- (b) "All debris must be hauled away at the end of each week for the work that was done on that week. No combustible material shall be used for backfill, but shall be hauled away. There shall not be any burning of materials on the site of the razed building. If any razing or removal operation under this Section results in, or would likely result in, an excessive amount of dust particles in the air creating a nuisance in the vicinity thereof, the permittee shall take all necessary steps, by use of water spraying, or other appropriate means, to eliminate such nuisance. The permittee shall take all necessary steps, prior to the razing of a building, through the employment of a qualified person in the field of pest control, or by other appropriate means, to treat the building as to prevent the spread and migration of rodents and insects there from during and after the razing operations."
